PROFILE

After 20 years working as an Oracle Specialist I decided to take the bold move and re-skill as a Web Developer. I'm really excited about trying new frameworks and libraries to further improve myself and bring ideas to reality.

SKILLS

- HTML, CSS3
- JavaScript
- jQuery
- Ruby On Rails
- SQL, PostgreSQL
- Bootstrap
- APIs
- React
- AJAX
- Git, GitHub,
- Oracle Databases
- Unix OS
- Data Encryption
- Pl/SQL
- Vue,

EXPERIENCE

GENERAL ASSEMBLY | SEPT 2018 - NOV 2018
JUNIOR WEB DEVELOPER

Working with the following frameworks/libraries, methodologies and collaborative tools -HTML, CSS, Bootstrap, Ruby, Rails, JavaScript, Node JS, JQuery, React, Git, GitHub, PostgreSQL, Vue, APIs, MongoDB and Agile.

Examples of some of my projects:
- Project - FarmShare
Application for hobby farmers to trade or share their excess supplies to charities or other hobby farmers. Built with Ruby On Rails, 3rd Party APIs, PostgreSQL and React
- Project - Trippo
Application for tourists planning a trip to New South Wales. This was a group project. Built with Ruby On Rails, 3rd Party APIs, PostgreSQL and Bootstrap, AJAX, JavaScript
- Project - Tic-Tac-Toe
A two player game with score tracking board. Built with HTML5, CSS3, JavaScript
